

Date Of Admission On Green Card

Date Of Admission On Green Card - Where to Find Date of Admission. The date is near the bottom next to "Resident Since." For example, "08/21/07" would be the Date of Admission for the green card holder shown in the image below. The location on the card has changed over time. You may find the date in a different place on older cards. For examples of more types of green cards, use CitizenPath to prepare Form I-90. With older Green Cards, you can find the date and place of admission on the back of the card. The city will be listed in code, such as BUF for Buffalo NY, or SFR for San Francisco CA. The date is also listed in code, with the two-digit year followed by the two-digit month and two-digit day. What does "Date of Admission" in the I-90 form? Is this the date when I first entered U.S. or the date when I was granted permanente resident? What would be the date of admission as an immigrant or Adjustment of Status? My husbands green card is up for renewal but we are not sure whow to answer some of the questions.
