

Golf 4 Tps Wiring

Golf 4 Tps Wiring - P0221 & p0121 codes need help please - posted in Performance and Technical: Hi members getting p0221/000545 tps/pedal position sensor/switch B ckt range & performance & p0121/tps/pedal position sensor A ckt range & performance codes on my mk5 Getting epc & traction light goes into link mode Might be throttle body or wiring or ECM Any help would be appreciated thanks One of the guys here had a friend that used that throttle body on his RB25DET, with the greddy intake manifold and he says it doesnt run that well on the stock turbo that comes with the motor, if you're running close to the stock unit, i'd stay with the stock throttle body, and if your upgrading to a larger turbine then the Q45 tb wouldnt be a bad choice i guess. Find throttle sensors opel corsa Postings in South Africa! Search Gumtree Free Classified Ads for the latest throttle sensors opel corsa listings and more. Sorry if i offended anybody with regards to vw dealerships. i got ripped off twice by them, and i had to involve vw uk to sort the problem out while the car was still under warranty. we had our golf v 1.9tdi (08 reg) for the last 3 years (with one previous owner from new), and we bout it just after car turned 3yrs old.
